

## The Ultimate USB Rechargeable Battery Backup Cable

Give your iPhone/iPod Touch/iPod extra power while on the road using the XP1 power cable USB cable with a rechargeable battery which charges every time you connect your iPod, iPod Touch or iPhone to your computer. The XP1 power cable battery backup unit is as small as a D size battery. Take your XP1 power cable with you when you are on the go. If your iPod Touch, iPod or iPhone run out of juice just plug the XP1 power cable in and you have the power you need. Always have the backup power you need to keep going. The XP1 power cable has the ability to charge the iPhone/iPod/iPod Touch's internal battery as well and the XP1 power cable is compatible with Apple iPhone, iPod Touch and all iPod Docking Devices. Keep a XP1 power cable in your home, office and car to assure you always have the backup power you need. Optional retractable cable available.
